PROFESSIONAL SUMMARY

B.Tech Information Technology graduate (8.41/10 CPI, First Division with Honours) from Bhilai Institute of Technology, Durg. Experienced in full-stack web development (MERN stack), machine learning, and IoT systems with 2 industry internships. Certified Oracle Cloud Infrastructure AI Foundations Associate. Proven technical leader as IEEE CS Secretary and IEEE SIGHT Group Chair. National hackathon finalist (Hacksagon 2025 — 600+ teams; RMC Ideathon 2024 — IEEE Region 10, IISc Bangalore). Built 6+ production-ready projects including a multi-tenant SaaS platform, AI-powered research tool, and IoT systems with measurable real-world impact.

EDUCATION

Bachelor of Technology — Information Technology

August 2022 – May 2026

Bhilai Institute of Technology, Durg (CSVТУ) — NAAC Accredited, NBA Approved

CPI: 8.41/10 (76.57%) | First Division with Honours | Sem 7 SPI: 8.95

Relevant Coursework: Data Structures & Algorithms, Design & Analysis of Algorithms, DBMS, Computer Networks, Operating Systems, OOP (C++/Java), Artificial Intelligence, NLP, Cloud Computing, Cryptography & Network Security, IoT

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript (ES6+), TypeScript, C#

Frontend: React.js, Next.js 14, Vite, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, PHP, RESTful APIs, Socket.io, Microservices

Databases: MongoDB, PostgreSQL, MySQL, Firebase (Realtime DB & Cloud Functions), Supabase

AI / ML: scikit-learn, TensorFlow, OpenAI GPT-4, Puter.js, NLP, ML Pipeline, Feature Engineering

Cloud & Tools: Oracle Cloud Infrastructure (OCI), Vercel, Railway, Git/GitHub, Turborepo, Arduino IDE, Linux CLI, VS Code, Unity 3D

Integrations: Razorpay, Twilio WhatsApp, Firebase Auth, Semantic Scholar API, arXiv API, JWT

INTERNSHIP EXPERIENCE

Front-End Development Intern | Navodita Infotech

May 2024 – Jun 2024

- Developed responsive front-end components using HTML5, CSS3, and JavaScript, improving UI consistency across devices
- Collaborated on live client projects, delivering features within sprint deadlines and demonstrating professionalism (Certificate ID: CNI2405227)
- Gained hands-on experience with version control workflows using Git/GitHub in a professional team environment

Web Development Intern | Octanet Services Pvt. Ltd. (ISO 9001:2015)

May 2024 – Jun 2024

- Engaged in multiple web development projects demonstrating exceptional dedication and a strong willingness to learn
- Built and maintained web features under professional supervision, exhibiting high-level technical skills and professionalism
- Worked with company tech stack, adapting quickly to project requirements and coding standards

TECHNICAL PROJECTS

Satiety — Food Recommendation Web App | React.js, JavaScript, CSS3

Live: classicalgebra.github.io/Satiety

- Built production-ready food recommendation platform using React.js with component-based architecture and real-time state management
- Achieved 95+ Google Lighthouse performance score via code splitting, lazy loading, and asset optimization (40% bundle size reduction)
- Deployed on GitHub Pages with responsive design ensuring seamless cross-device experience

Algorithm Identifier — ML Classification Model | Python, scikit-learn, TensorFlow

github.com/classicalgebra/Algorithm_Identifier_Model

- Developed supervised ML model classifying algorithm types from code patterns across 10+ algorithm categories with 85%+ accuracy
- Implemented complete ML pipeline: data preprocessing, feature extraction (time/space complexity, structural patterns), model training, cross-validation, and evaluation
- Engineered automated feature engineering supporting multiple languages: Python, C++, Java

RestaurantOS — Restaurant SaaS Platform | Next.js 14, Node.js, PostgreSQL, OpenAI GPT-4, Socket.io

github.com/classicalgebra/Resturant-Saas

- Built full-stack multi-tenant SaaS platform for restaurant management using Turborepo monorepo with 4 frontend apps and 6 microservices (TypeScript 93%)
- Implemented QR code table ordering, real-time kitchen display with Socket.io, AI chatbot via OpenAI GPT-4, and automated sales analytics
- Integrated Razorpay payment gateway, Twilio WhatsApp notifications, Firebase Auth with role-based access (Customer / Staff / Admin / Super Admin)
- Deployed frontend apps on Vercel and backend microservices (auth, order, payment, notification, analytics, AI) on Railway with PostgreSQL/Supabase

Manovega — AI-Powered Psychology Research Library | React, Vite, Tailwind CSS, Puter.js, arXiv API

manovega.vercel.app

- Developed personal research library exploring the science of human behaviour, powered by Semantic Scholar API and arXiv API for real academic paper retrieval
- Integrated Puter.js for AI-driven insights, enabling users to query psychology research with natural language and receive contextualised summaries
- Built with React + Vite for fast HMR, React Router v6 for SPA navigation, and Tailwind CSS; auto-deployed via Vercel on every push

IoT Street Light Surveillance System | Arduino, Firebase, PHP, ESP32

2024

- Engineered distributed IoT surveillance system integrating PIR sensors, ESP32 camera modules, and cloud database for urban safety
- Designed scalable architecture supporting 50+ concurrent sensor nodes with 99.5% uptime and <500ms alert latency
- Built PHP administrative dashboard connected to Firebase Realtime Database for live data streaming, alert management, and analytics

Autonomous Rocket Navigation System [Ongoing] | Unity 3D, C#, AI/ML

github.com/by-matrix/Rocket_Navigation_Unity

- Building high-fidelity 3D physics-based rocket simulation with AI-driven autopilot using PID controllers for trajectory planning and precision landing
- Implementing advanced physics: thrust vectoring, gravitational forces, atmospheric drag, multi-stage propulsion, and real-time collision avoidance

Java Interactive Web Application | JavaScript, HTML5, CSS3

classicalgebra.github.io/javaproject

- Created full-stack web application with dynamic content rendering, event-driven architecture, and cross-browser compatibility (Chrome, Firefox, Safari, Edge)
- Implemented efficient client-side logic using vanilla JavaScript ES6+ features: async/await, destructuring, and arrow functions

LEADERSHIP & EXTRACURRICULAR

Secretary, IEEE Computer Society Chapter | BIT Durg — C16

Jul 2024 – Jul 2026

- Led 8+ technical workshops, hackathons, and coding competitions engaging 200+ students, increasing chapter participation by 60%
- Conducted GitHub Awareness Session campus-wide (Jul 2024); coordinated with industry professionals for 5+ AI/cloud seminars
- Represented BIT Durg as IEEE CS Secretary at IEEE Branch Counsellor Meet, Chhattisgarh Region (Sep 2024)

SIGHT Group Chair, IEEE SIGHT | BIT Durg SB SIGHT Group

Jul 2025 – Jul 2026

- Spearheaded humanitarian technology initiatives addressing community challenges through IEEE's Special Interest Group on Humanitarian Technology
- Managed cross-functional teams of 15+ members on technology-for-good projects with community stakeholders
- Volunteered as IEEE WIE STEAM Spark 2025 organizer (Jul–Aug 2025), recognized by IEEE R10 WIE ATHEnA Grant Phase 2
- Volunteer, Abhivyakti Ki Udaan (Golden Empathy Foundation) — cultural programme for specially abled children (Sep 2025)

AWARDS & ACHIEVEMENTS

- Finalist — Hacksagon 2025 (National Level Software & Hardware Hackathon, ABV-IIITM Gwalior) | Team Matrix | 600+ registered teams
- Finalist — RMC Ideathon & Pitchfest, IEEE Returning Mothers Conference 2024 | IISc Bangalore | Idea: Power Block (Solar Power Bank) | IEEE Region 10
- Participant — IEEEExtreme 18.0 Programming Competition (Oct 2024) | Team Matrix24 | 19,000+ global participants
- IEEE R10 ERM Student Contest — Rounds 1 & 2 (2024) | Outstanding understanding of IEEE Code of Ethics

CERTIFICATIONS & TRAINING

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle University (Valid: Oct 2025 – Oct 2027) | ID: 103059093OCI25AICFA
- 100% Job-Ready DSA Course — LearnYard (Completed Jul 13, 2024) | Mohammad Fraz, IIT Delhi
- Java Training — EduPyramids / SINE, IIT Bombay (Dec 2025) | Score: 80% | Credits: 4
- Python 3.4.3 Training — IIT Bombay Spoken Tutorial (Aug 2024) | Score: 85% | Credits: 4
- PHP & MySQL Training — EduPyramids / IIT Bombay (Apr 2025) | Score: 66.67% | Credits: 4
- JavaScript Training — EduPyramids / IIT Bombay (Apr 2025) | Score: 67.50% | Credits: 2
- Netbeans Training — EduPyramids / IIT Bombay (Dec 2025) | Score: 92% | Credits: 1
- HTML Training — IIT Bombay Spoken Tutorial (Aug 2024) | Score: 75% | Credits: 1
- C & C++ Training — IIT Bombay Spoken Tutorial (Jan 2024) | Score: 75% / 57.5%
- BASH / Linux Training — IIT Bombay Spoken Tutorial (Jan 2024)

IEEE MEMBERSHIPS (2026)

Active Student Member (through Dec 2026) — IEEE Computer Society | IEEE Women in Engineering (WIE) | IEEE Industry Applications Society | IEEE Geoscience & Remote Sensing Society | IEEE Electron Devices Society | IEEE Electronics Packaging Society | IEEE Sensors Council | IEEE Council on Electronic Design Automation (CEDA) | IEEE Consultants Network | IEEE Information Theory Society

ADDITIONAL INFORMATION

Open Source: 4+ public GitHub repositories: full-stack, ML, IoT, game dev

Competitive Programming: 100+ problems solved | DSA proficiency in Arrays, Trees, Graphs, DP, Sorting

Languages Known: Hindi (Native), English (Professional)
